RE ENTRY INTERVAL: 6 hours

HAZARD AND PRECAUTION:
Handling Precaution: Keep out of reach of children, away from food stuff, empty foodstuff containers and animal feeds. Do not bring spray equipment or materials into food factories or in contact with eyes and skin. Keep away from fire and sparks. Do not allow the product to become wet or overheated in storage. Use overall, gloves, and mask when handling. Do not eat, drink or smoke while handling this product.

Safety When Mixing: Avoid contact and inhalation with the powder when mixing. Avoid contamination from spray liquid by spillage or drift.

Safety When Spraying: Wear full protective clothing and avoid inhalation of the spray mist. Spray in the direction of the wind.

Safety After Spraying: Wash hands and body thoroughly after spraying. Do not reuse empty container. Dispose the empty container safely.

STORAGE: Store Abasi 5 EC under lock and key and out of reach of children in a cool dry place away from food, feed and animals. Keep away from fire and sparks. Do not allow to become wet or overheated in storage. Avoid excreting pressure on the powder. Store below 30°C.

DISPOSAL: Triple rinse the bags. Do not re-use the empty bags for any other purposes or leave the empty bags outside to prevent their re-use. Dispose off away from open water sources and human habitats in accordance with National Legislations and Regulation on Pesticides.

ENVIRONMENTAL HAZARDS: Abasi 10 EC is toxic to fish. Do not contaminate ponds or water sources and ditches with this product. Do not apply when bees are actively foraging.

FIRST AID INSTRUCTIONS: If poisoning is suspected, stop work immediately. Check any signs of distress. Remove the victim from area of contamination and if clothing is contaminated remove it. Skin contact - Remove contaminated clothing, wash with plenty of water and soap. If irritation persists, see a physician. Eye contact - Rinse eye gently with running water for at least 15 minutes. Inhalation - Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth to mouth. Get medical attention. Ingestion - Do not induce vomiting unless instructed to do so by qualified medical personnel. SEEK MEDICATION ATTENTION IMMEDIATELY.

TOXICOLOGICAL INFORMATION:
Symptoms of Poisoning: itching, reduced nasal ingestion, tightness in chest, palpitation and hypertension. Ingestion may produce nausea, vomiting and diarrhea. Hypothermia and ataxia are characteristic.

Antidote: No specific antidote known. Treat symptomically.

Notice to physician: No specific treatment is available and symptomatic therapy only is possible.

IN CASE OF POISONING CALL TOLL FREE NO. 0800700020 / 0800700030 (24 HRS)
