(Maka miwili baada ya tarehe ya kutengenezwa kama imehifadhiwa kwenye chombo chake asili kushichofunguliwa pahali pakavu pasipo na joto jingi)

**CAUTION**  
(Tahadhari)

**DESCRIPTION:**

ADVENTURE 0.5% GR is a contact and stomach toxic action biological nematicide, against every developmental stage of root-knot nematodes on Carnations, and Tomatoes.

**MODE OF ACTION:** Abamectin acts by blocking transmission of signals between nerve cells or between nerve and muscle cells. It belongs to Avermectin class.

**APPLICATION RATES**

Crop	Pest	Rate
Carnations	Nematodes	15kg/ha in 80L of water (Treatments applied by drenching 4 times at interval of 2 weeks using knapsack sprayer without nozzle)
Tomatoes	Nematodes	15kg/ha in 80L of water (Treatments applied by drenching 2 times at interval of 21 days using knapsack sprayer without nozzle)

**PRE-HARVEST INTERVAL: Tomatoes, 50 days.**

**APPLICATION TECHNIQUE:** Mix ADVENTURE 0.5% GR evenly with fine dry soil, then cover with top soil or spread evenly on the planting trench and cover with top soil.

**RE-ENTRY PERIOD:** Zero days as the product is incorporated into the soil.

**HAZARD/PRECAUTION**

**SAFETY PRECAUTIONS:** Keep away from food drinks and animals, while handling the materials wear overalls with long sleeved shirt, respirator, nature rubber gloves and goggles. Avoid inhalation of the material and contact of the liquid with eyes or skin. Wash hands and all contaminated clothing thoroughly with water and detergent. KEEP OUT OF REACH OF CHILDREN.

**STORAGE:** Store in the closed, original container in a cool, well-ventilated area. Prevent close contamination with other pesticide and fertilizers. Do not store over 38°C for an extended period of time.

**DISPOSAL:** Triple rinse containers before disposal. Puncture or crush empty containers and dispose at a safe designated place away from water sources in accordance with National regulation. Do not reuse empty containers.

**ENVIRONMENTAL HAZARDS:** Extremely dangerous to fish and other aquatic life. Do not contaminate surface water or ditches with chemical washings or empty containers for any other purposes.

**FIRST AID TREATMENT:**

**Inhalation:** Move person to fresh air. If person is not breathing, give artificial respiration, preferably mouth-to-mouth if possible.

**Skin contact:** Take off contaminated clothing. Wash the affected area thoroughly with plenty of water and soap for 15-20 minutes.

**Eye contact:** Hold eyelids open to facilitate rinsing, flush with copious amount of water for at least 15 minutes.

**Ingestion:** Rinse mouth and then drink a lot of water. Do not induce vomiting.
