DESCRIPTION: BACIGUARD® 16WDG is a biological insecticide for control of the larval stages of Lepidoptera insects such as caterpillars on roses.
On feeding on plants treated with BACIGUARD® 16WDG, larvae stops feeding, becomes a lethargic, move less, discolors and dies within a few days.

DIRECTIONS FOR USE: Apply BACIGUARD® 16WDG when larvae are young and before crop is extensively damaged. If possible apply when eggs begin to hatch. Repeat application at an interval of 5 days.

APPLICATION RATES

Crop	Rate
Roses	250-500 g/ha in 1000L of water (10 g in 20L of water)
Caterpillars	

PREPARATION OF SPRAY MIXTURE: Fill spray tank with half the amount of required water. Add required amount of BACIGUARD® 16WDG and fill the water to the required level. Agitate to ensure thorough mixing. Ensure the spray mix is used on the same day it is prepared.

RE-ENTRY PERIOD: Do not enter treated areas during the restricted entry interval of 1 hour.

SAFETY PRECAUTIONS: Avoid contact with skin and eyes. When using do not eat, drink or smoke. Wear overalls, safety glasses and impervious gloves. Wash contaminated clothing and other protective equipment before storage or re-use.

STORAGE: Store in the closed, original container in a cool, well-ventilated area. Keep out of the reach of children. Store away from food and feed stuff.

DISPOSAL: Triple rinse empty containers and dispose at a safe designated place away from water sources in accordance with rules and Regulations. Do not reuse empty containers for any other purposes.

ENVIRONMENTAL HAZARDS: Do not contaminate streams, rivers or waterways with the chemical or used containers.

FIRST AID TREATMENT:
Inhalation: If inhaled, move to fresh air and keep at rest. Obtain medical advice if symptoms persist.
Skin contact: Wash off immediately with soap and plenty of water. Seek medical aid if symptoms persist.
Eye contact: Immediately rinse eyes with plenty of water and seek medical advice.
Ingestion: Move patient from source of exposure and seek medical advice.

TOXICOLOGICAL INFORMATION: Direct contact with eyes or skin may cause mild irritation.
Symptoms of Poisoning: Not known.
Antidote: No known antidote.
Note to the Physician: Treat symptomatically.

In case of poisoning, call (24hr) toll free number 0800720021 or 0800730030
