

**DESCRIPTION:**

**CALRATE 5 EC™** is broad spectrum synthetic pyrethroid insecticide for use on Tomatoes, French Beans and Snow Peas. **CALRATE 5 EC™** is a contact and stomach poison.

**DIRECTIONS FOR USE**

Crop	Pest	Application	
Tomatoes	Aphids, Caterpillars, Thrips and Whiteflies	300-500ml / Ha (8-20ml/20lt water)	R.E.I - 6 hours P.H.I. - 3days
French Beans and Snow Peas	Aphids, Caterpillars, Thrips and Whiteflies	300-500ml / Ha (8-20ml/20lt water) 300-500ml / Ha (8-20ml/20lt water)	

**PREPARATION OF SPRAY MIXTURE:**

Half fill the spray tank (knapsack) with water. Add the required amount of **CALRATE 5 EC™** and adjuvants maybe required and mix while stirring or agitating, then fill the water to the required level and continue with stirring or agitation until the mixture is thoroughly uniform.

**APPLICATION AND TIMING TECHNIQUE:**

**Foliar Pests:** Start spraying **CALRATE 5 EC™** when the first signs of insect pests are noticed on the crop and where necessary, repeat application after 7-10days.

**HAZARDS/PRECAUTIONS:**

**HANDLING:** Wear suitable protective clothing, gloves, face shield/safety goggles and respirator when preparing the spray mixture and in addition impermeable boots when spraying. Avoid breathing the spraymist, contact with skin, eye and clothing. Do not apply up wind and stay out of the spraymist. Do not smoke, drink or eat while handling the product.

**After work:** Remove protective clothing and wash hands thoroughly with soap and plenty of water. Wash the spraying equipment and the contaminated clothing carefully.

**STORAGE:** Store in tightly closed original container, in a cool dry place out of reach of children and unauthorized persons, away from food, drinks and animal feed.

**DISPOSAL:** Triple rinse, puncture or crush empty containers before disposal in a safe and authorized place in accordance with National legislation and regulations on chemical disposal. Do not re-use empty containers for any other purpose. Pesticide spray mixture or reconstituted that cannot be used must be disposed where it cannot contaminate surface water and ditches.

**PESTICIDE LEAKAGE AND SPILLAGE:** In the event of heavy spillage, collect the contaminated soil layer and dispose off in an authorized place away from water supplies. Soaking in sand, soil or sawdust may collect small spillage. Contaminated absorbent material must be stored in marked waste bins prior to disposal in authorized land fill site in accordance with national legislation and regulations. The pesticide store must be decontaminated by washing with a lot of water.

**WILDLIFE AND ENVIRONMENTAL PROTECTION:** **CALRATE 5 EC™** is toxic to fish, other aquatic organisms and bees. It is moderately harmful to birds and animals. Do not contaminate ponds and water ways by direct application, cleaning of equipment, disposal of wastes and empty container. Do not spray when bees are foraging. Keep live stock and wildlife out of treated areas.

**FIRST AID INSTRUCTIONS:**

**If Inhaled:** Remove the patient to fresh air. Keep the patient warm and at rest. If the patient is not breathing, apply artificial respiration and seek medical attention.

**If on skin:** Remove contaminated clothing and wash off with plenty of water and soap. Consult the doctor in case the complain persists.

**If in the eyes:** Rinse thoroughly with running water for at least 15 minutes. If pain persists, consult an eye specialist.

**If swallowed:** Do not induce vomiting. Wash out mouth with water. Consult a doctor.

**TOXICOLOGICAL INFORMATION:** **CALRATE 5 EC™** maybe fatal if swallowed and causes substantial but temporary eye injury. It is harmful if absorbed through the skin.

**Symptoms of Poisoning:** Irritation to mucous membranes and skin, high dose may result in irritation of central nervous system.

**Antidote:** There is no specific antidote.

**Note to physician:** Keep the victim warm and at rest. Treat symptomatically.
