

DESCRIPTION: MISSILE 75SP® is an insecticide for control of Leaf Chewing Insects, Leaf Minor and Thrips on Roses. The active ingredient of MISSILE 75SP® is Acetophenone, a water-soluble insecticide readily absorbed by plant roots and foliage to give systemic control of feeding insects. Insect pests are generally controlled more effectively by through ingestion than by contact.

USE RESTRICTIONS: DO NOT apply more than twice per season to minimise development of resistance to MISSILE 75SP®, MISSILE 75SP® can be used under very low pest pressures, and under high pest pressures.

DIRECTIONS FOR USE:

APPLICATION METHOD: Mixing Instructions; Dissolve the required quantity of MISSILE 75SP® in a small volume of water and then add to the filling spray tank while agitating. Clean this container by rinsing and add rinsate to the spray tank. Never mix undiluted products or their premixes before adding to the tank. When MISSILE 75SP® is used in a water-oil mixture, first dissolve the MISSILE 75SP® in the spray water before adding the oil.

PRECAUTION: Avoid inhalation or breathing of dust and spray. Avoid contact with skin, eyes and clothing. Accidental splashes should be washed off immediately. Wear rubber gloves and face shield when handling MISSILE 75SP®. Do not eat, drink or smoke whilst applying the insecticide or before washing hands and face. Do not enter treated field until spray deposit has dried unless wearing protective clothing. Wash hands thoroughly after handling MISSILE 75SP®. DO NOT allow children or pets to come into contact with treated areas until sprays have dried. Discard clothing and other absorbent materials that have been drunk or heavily contaminated. DO NOT reuse them.

STORAGE: Store in an original tightly closed container in a cool place out of reach of children and away from food and feed stuff.

DISPOSAL: DO NOT reuse empty containers for any other purpose. Triple rinse, purchase and use empty containers and dispose them off in a safe authorized place in accordance with National Legislation and Regulations on disposal or return the containers to the stock suppliers.

LEAKAGE AND SPILLAGE: Remove contaminated soil layer and bury in a safe place away from water sources. Collect the contaminated material thoroughly and bury in a safe place or put it in a waste bin or a plastic bag, mark it and dispose off on a landfill site approved for pesticides. Contaminated sawdust to be burnt away from human dwellings.

WILDLIFE PROTECTION AND ENVIRONMENTAL HAZARDS: MISSILE 75SP® is highly toxic to bees exposed to direct residues on blooming crops or weeds. DO NOT apply this product or allow it to drift to blooming crops or weeds while bees are visiting the treatment. Immediately for treatment advice. Have a person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by a poison control centre or doctor. DO NOT give anything by mouth to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing seek medical advice immediately then give artificial respiration preferably by mouth-to-mouth. Call a poison control centre or doctor for further treatment advice. Skin or Clothing Contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 minutes. Call a poison control centre or doctor for further treatment advice. Eyes Contact: Hold eyes open and rinse slowly and gently with water for up to 15 minutes. Remove contact lenses, if present after the first 5 minutes then continue rinsing eyes. Call a poison control centre or doctor for treatment advice.

TOXICOLOGICAL INFORMATION: Symptoms of Poisoning; Harmful if swallowed. Causes eye irritation.

Notice to Doctor: Antidote; No specific antidote. Treatment: Treat symptomatically.
