HARMFUL  
(INADHURU)

**GENERAL DESCRIPTION:** SENSTROBIN 25 WDG is a contact and systemic fungicide for the control of rust in french beans, powdery mildew and botrytis in roses.

**DIRECTIONS FOR USE:** SENSTROBIN 25 WDG is only to be mixed with water to be ready for use. Half-fill the spray tank with water and add the required amount of SENSTROBIN 25 WDG. Complete filling the tank with water and ensure good agitation of the spraying mixture throughout the whole application process. For the best results apply Senstrobin 25 WDG early in the disease cycle.

**MODE OF ACTION:** Its fungicidal activity results from inhibition of mitochondrial respiration in fungi. It belongs to the **Strobin Chemical group**.

**RATES OF APPLICATION:**

CROPS	DISEASE	APPLICATION RATE
French Beans	Rust	0.5 Kg/ Ha or
Roses	Powdery mildew, Botrytis	10 g/ 20 Lt water

**PRE-HARVEST INTERVAL:** French beans- 3 days

**RE-APPLICATION INTERVAL:** 7 days

**HAZARDS/PRECAUTIONS:**

**HANDLING:** Wear protective clothing, face mask, gloves, overall, boots and goggles when handling the product. Do not eat, drink or smoke when handling the product.

**After work:** Remove protective clothing and wash hands thoroughly with soap and plenty of water. Wash the spraying equipment and the contaminated clothing carefully.

**STORAGE:** Store in tightly closed original container in a cool dry well ventilated place, under lock and key so that children and unauthorized persons do not have access. Keep away from food, drinks and animal feeding stuffs.

**DISPOSAL:** Triple-rinse, puncture or crush empty containers before disposal in a safe and authorized place in accordance with National legislation and regulations on chemical disposal. Do not re-use empty containers for any other purpose. Pesticide spray mixture or rinsate that cannot be used must be disposed of where it cannot contaminate surface water and ditches.

**PESTICIDE LEAKAGE AND SPILLAGE:** In the event of heavy spillage, collect the contaminated soil layer and dispose of in an authorized place, away from water supplies. Soaking in sand, soil or sawdust may collect small spillage. Contaminated absorbent material must be stored in marked waste bins prior to disposal in authorized landfill site, in accordance with national legislation and regulation. The pesticide store must be decontaminated by washing with a lot of water.

**ENVIRONMENTAL HAZARDS:** Senstrobin 25 WDG is toxic to fish and bees. Do not spray when bees are actively foraging. Do not contaminate streams, rivers or waterways with the chemical or used packs. Hazardous to animals. Keep away from animals.

**FIRST AID INSTRUCTIONS:**

**Skin contact:** Take off clothing; wash the skin immediately with plenty of water and soap.

**Eye contact:** Hold the eye open and rinse thoroughly with running water for at least 15 minutes.

**If inhaled:** Move the patient to fresh air. If the patient is not breathing, give artificial respiration, preferably mouth-to-mouth and call the doctor immediately.

**If swallowed:** Seek medical advice immediately. Give a glass of water if the patient is able to swallow. Do not induce vomiting. Do not give anything to unconscious person.

**TOXICOLOGICAL INFORMATION:**

**INGESTION:** May cause nausea, vomiting and abdominal pain.

**SKIN CONTACT:** May cause mild skin irritation.

**INHALATION:** May cause mild headache & respiratory irritation.

**EYE CONTACT:** May cause eye irritation.

**NOTE TO PHYSICIAN:** Treat symptomatically.

**ANTIDOTE:** There is no known specific antidote.

**IN CASE OF POISONING CALL TOLL FREE NO.: 0800 720 021 / 0800 730 030 (24Hrs)**
